

# Free Drive-Thru Covid-19 Testing\*

*\*some exclusions may apply*

**RESULTS IN 48-72 HOURS**

All patients are required to check in with the traffic coordinator in the yellow vest upon arrival. Patients will be put on a waitlist and will be asked to scan a QR code, provided by the Haztech team on-site. This code will give an estimated wait time. A text message will be sent to the patient when it is their time to be seen, to help alleviate traffic and long lines.
